

Fredericton Arts Alliance's Legal Arts Resources
(Special projects)

Fredericton Arts Alliance participates in University New Brunswick's Faculty of Law *Probono students Canada program* to create useful legal resources for Artists and Arts Organizations. To date we have created a book about copyright law for artists and will soon finish a book concerning contract law for the arts. The next project will be concerned with business law pertaining to the arts. The *Probono students Canada program* is designed to encourage students, who will become lawyers, to do pro-bono work.

What is the Purpose of the Program?

The main purpose of this project is to provide artists and their organizations with useful information pertaining to law affecting the arts from each discipline's perspective and written in an accessible style.
