Solo Chicken Productions, the coop, in collaboration with Chartier Danse, are thrilled to announce a year-long Creative Residency with choreographer/director Marie-Josée Chartier, at the Fredericton Playhouse. 4. Workshop on Artificial Intelligence and the Arts at Charlotte Street Arts Centre, Sept 15, 9am-5pm

Artificial Intelligence will affect how art is created and consumed just as it will affect services health, education, and decision-making by governments. Artists’ voices are essential to ensuring that diverse worldview and thought disciplines are included as the ethical frameworks around Artificial Intelligence are constructed - and the time is now. We need artists not only using these tools, but informing the conversation about how these tools will be deployed, and to whose benefit.

This one-day workshop will not only equip artists to understand the implications and opportunities of artificial intelligence but also imagine the appropriate artistic and political responses to a world that will be significantly altered by the introduction of these technologies. This workshop will be bilingual and all relevant documents available in both official languages.

Structure:

- Hands-on experience with AI in a non-technical way
- Notes from the field on how it is being deployed
- Considerations for New Brunswick creators and communities
- How can communities respond (making sense)?
- Shared response - what’s next?
- Action and recommendations

This workshop is designed for ALL levels of technical expertise. Lunch will be provided. This event is co-lead by Akoulina Connell, Jerrold McGrath and Valentine Goddard. For more information, or to register, visit https://www.eventbrite.ca/e/artificial-intelligence-and-the-arts-fredericton-registration-66906909367, or https://www.artimpactai.com/artists-leading-change.
